

## ***Mission***

To increase access to food through advocacy and education

## ***Vision***

Sustained access to healthy food for all Utahns

## ***Our Values***

**Credible:** Our personal and professional integrity underpin our agency's decisions, policy recommendations, and programs. Our expert authority is data and research driven.

**Innovative:** We pursue creative solutions to increase food access and identify education opportunities in our dynamic environment, harnessing our creativity and flexibility for the common good.

**Change Agents:** We are individually and collectively empowered to shape social change. We take risks tempered with facts, plans, and personal accountability. We believe that individuals can make a difference through action.

**Collaborative:** In common cause, we partner with civic and community organizations to leverage our collective strengths.

**Respect:** We recognize and celebrate the value of ourselves and others, understanding the perspectives of different stakeholders in solving the challenges of food access and public perceptions about hunger and poverty.

# What we do

- Public Policy Advocacy
- Increase access to Federal Nutrition Programs
- Real Food Rising, youth development
- Education

# How can we work together?

- Compile a report on food/farming related projects underway.
- Help analyze data from pre/post youth assessments and researching/designing long term evaluation tools for Real Food Rising
- Assist with focus groups and surveys in Glendale and poplar grove neighborhoods on accessing local produce.
- Develop marketing and educational materials about Real Food Rising's locally grown produce for the community and restaurants.
- Assist in increase participation in the school breakfast program.
